RAJISTE BENNIN

WEB DEVELOPER

PROJECTS

STRETTO

Full Stack CRUD Application that allows users to search for local/national music festival events, view the performers and even purchase tickets online.

Ruby+Rails, Material Design Lite

<https://stretto-app.herokuapp.com/>

Blackjack 21

Classic casino game with \$10,000 starting bankroll.

HTML, CSS, Javascript

<https://rajisteb.github.io/BlackJack21/>

EXPERIENCE

General Assembly, New York, NY, 2017

Student

Full stack web development student. Built a number of CRUD applications using a variety of frameworks and libraries centered around HTML, CSS & Javascript with some Ruby+Rails as well. Explored computer science concepts such as data structures, algorithms and Big O notation.

Hallmark Capital Asset Mgmt, Brooklyn, NY, 2016 - 2017

Currency Market Research Analyst

Responsible for overall market analysis, training/onboarding new brokers, daily/weekly reports and actionable trade ideas for the CIO based on both technical and fundamental factors. Created technical solutions using third party API's for both research and sales purposes.

Main Street Hub, New York, NY, 2015 - 2016

Marketing Consultant

Small business marketing consultant primarily advising restaurants and automotive shops on how to leverage social media and SEO to promote their business and to improve customer retention.

EDUCATION

2017

General Assembly

Full Stack Web Development Immersive

2006 - 2010

State University of New York at Binghamton Univ.

Bachelor of Arts - Philosophy, Politics & Law
